

Comparing Fraction Sizes: Bigger, Smaller or the Same?

I. Compare the following fractions. Write the correct symbol in the blank.

Example:

$$1/2 \underline{>} 1/6$$

Remember:

> means greater than

= means equal

< means less than

$$1/3 \underline{\quad\quad} 1/4$$

$$3/4 \underline{\quad\quad} 1/6$$

$$1/2 \underline{\quad\quad} 2/4$$

$$2/8 \underline{\quad\quad} 2/4$$

$$2/2 \underline{\quad\quad} 3/3$$

$$3/6 \underline{\quad\quad} 4/8$$

II. Write the following fractions in order, with the smallest fraction on top and the largest fraction at the bottom.

$2/2$ $1/4$ $2/3$ $3/6$

III. Which is the biggest piece of pie? Circle the correct answer.

$3/8$ or $3/6$

$2/6$ or $1/4$

$3/4$ or $2/8$

$1/2$ or $5/6$

Comparing Fraction Sizes: Bigger, Smaller or the Same?

I. Compare the following fractions. Write the correct symbol in the blank.

Example:

$$1/2 \underline{>} 1/6$$

Remember:

> means greater than

= means equal

< means less than

$$1/3 \underline{>} 1/4$$

$$3/4 \underline{>} 1/6$$

$$1/2 \underline{=} 2/4$$

$$2/8 \underline{<} 2/4$$

$$2/2 \underline{=} 3/3$$

$$3/6 \underline{=} 4/8$$
